After a long drive out, through the chaotic traffic, we arrived in Meldreth all at different times... late, bad start.

With a lack of players this evening, the line-up wasn't our best but on paper suggested we stood a good chance. The game started off well with Milton playing the better of the football, unfortunately it didn't last long and we resorted to hoofing the ball. RHS weren't lacking in height and enjoyed winning the majority of headers and started to control possession.

Paolo made some great saves early on only for RHS's persistence to pay off with a couple of early goals. Milton took some time to react. Shortly after Fisher picked the ball up in there half, played it out wide to George 'Half a Sandwich' Hadfield, who knocked a well placed ball to the back post and Boggy nodded home. Better.

Confidence grew for about 5 minutes, but soon got shattered with the other side getting the best of our defence and scoring again. The first half Milton were off the pace and never looked interest with short passes being misplaced and never really taking control of possession.

The second half proved no better than the first. Fisher opened the scoring early on to make it 3-2. Milton leaked some sloppy goals coming from yet again, giving the ball away left, right and centre. The best and only part was when Hodgy scored with a quality finish into the top corner quite late on.

It finished up 7-3 to RHS and Milton were taught a lesson in all honesty. Things were bad from the second we arrived. We were unorganised all over the pitch.
